ETIKA Consulting provides strategic Debt Collection solutions in all industries. We are specialized in solving any kind of international recovery issues.

Complete Value Chain

ETIKA is an eco-responsible and sustainable company

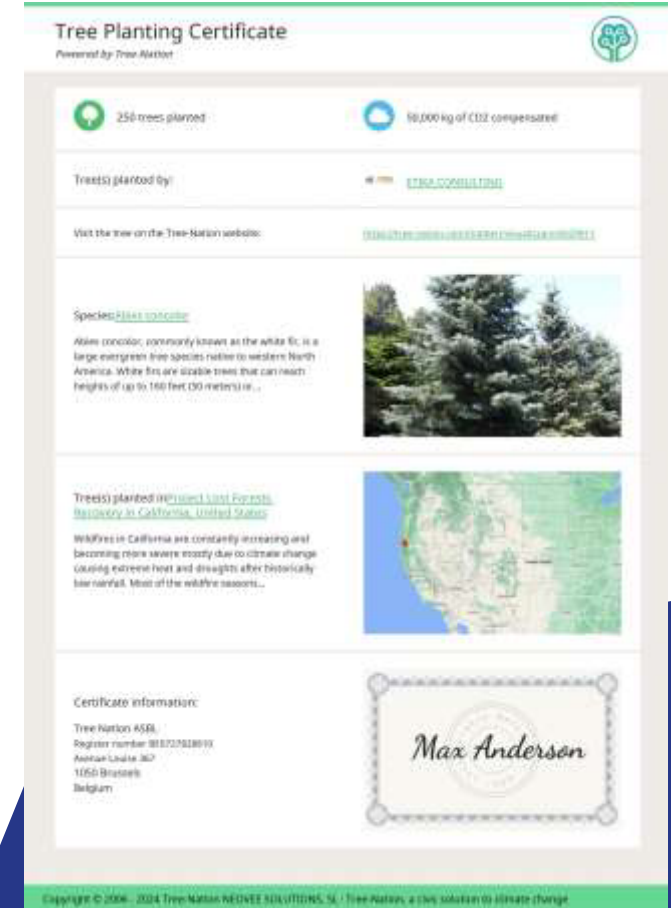

Process description

We plant trees to compensate for the paper used for our dunning letters and for the CO2 emissions released to deliver them, turning our shipments into zero-emission shipments. Thanks to our new initiative, in April 2024 only, we planted 250 fir trees, offsetting 50.000 kg of Co2.

International Presence Consolidated Network with local native-speaking correspondents

- Coordination from Switzerland
- Appointment of the ideal Partner
- International business information
- Local engagement with debtors
- Customer care
- Bias for amicable collection
- Legal assistance

Whoever chooses ETIKA Consulting makes a responsible choice.
